### **Eriez® High Speed Feeders Provide Superbly Fast, Efficient Feeding of a Wide Range of Materials**

Eriez® introduces a new series of AC operated [High Speed Feeders](#) that are designed specifically for exceptionally high speed feeding of light, bulky materials. These rugged and powerful feeders are ideal for scales and other applications that require higher throughput and advanced control.

In addition to advanced high speed feed rates, Eriez' High Speed Feeders feature a quick-stopping characteristic to assure accurate handling of materials for economy and efficiency in mixing, weighing, batching packaging and bagging operations.

Eriez' High Speed Feeders are available in eight models. Each model has unique feed rate capabilities ranging from 40 cubic feet to 600 cubic feet per hour. Feed rate is easily adjusted by Eriez' solid-state type controllers to enable trouble-free handling of bulk materials from a few ounces to several tons per hour.

All Eriez High Speed Feeders units are light and functional and can be installed easily in a minimum amount of space and integrate well with other equipment.

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and inspection applications. The company's magnetic lift and separation, metal detection, x-ray, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, recycling, mining, aggregate and textile industries. Eriez manufactures and markets these products through ten international facilities located on six continents. For more information, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada. For online users, visit [www.eriez.com](http://www.eriez.com) or send e-mail to [eriez@eriez.com](mailto:eriez@eriez.com). Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
